

# OHIO & INDIANA MANAGED MEDICARE PAYER REPORT

Access Advantage is a Post-Acute Network of high-performing solution driven providers.

Founded in 2007 we've helped over 75 skilled nursing, assisted living and homecare providers with managed care contracting services. Some had no contracts at all when they came to us for help with their rapidly expanding managed care marketplace. Others needed existing contracting renegotiation assistance or management services for contracting already in place. Their commonality has always been, and remains today, a desire to care for managed care enrollees in their communities.

Recognizing managed care is complicated, our Member's appreciate our expert, shared resources model of contracting, adaptable to their unique needs. As a trusted, third party, Access Advantage supports each Member individually in addressing their strategic market goals. Throughout the years we've steadily maintained a core network of 25-35 Member's utilizing our aligned Solutions based on a retrospective, administrative Fee model. As contracting goals are met, we offer streamlined Membership services on a subscription basis adjusted to meet their continued, and ongoing, needs.

Our Access Advantage solutions include:

- Payer Relationships- We take pride in our cadre of managed care relationships fostered over time and our understanding of payer goals and initiatives. Using CMS data we track new payer entries into our markets; identifying new relationships important to our Membership.
- Contracting Services- We initiate, develop and manage agreements, amendments and rate negotiations. We use managed care attorneys to review and address language and comparative market rate information to negotiate upwardly.
- Credentialing Services- We adhere to the National Committee of Quality Assurance (NCQA) guidelines. We review every provider survey and address emergent payer quality concerns.
- Performance Services- We use existing, available CMS and State data to profile our Membership and their care against their competitors. All analysis is provided by us using our Map to Market (M2M) proprietary program development by clinical experts.

- 
- Payer Intel- We provide ongoing payer Alerts on new managed care payer developments, including operational support for authorizations, claims and appeals with Member staff training to ensure we operate hand in hand together.
  - Authorization/Precertification Services- We support Member admissions by providing end-to-end payer auth/precert services including recertifications and NOMNIC processes.
  - Transparent Payment Processing- We electronically process all Member billing to payer with 60% of claims paid correctly within 45 days of submission. Using our claims portal all collections activities may be viewed by our Membership, with ongoing payment reporting on thorny, difficult to collect claims.

In short, Access Advantage provides the expert, managed care solutions to achieve relationships of value between our providers and managed care plans.

Thank you for your interest in Access Advantage Membership, we look forward to speaking with you further.

## Testimonials

“Our experience with Access Advantage has been truly outstanding and has fundamentally improved our administrative operations. Diane has been a dedicated partner, providing invaluable support with our medical records requests and clinical documentation needs. Recently, our facility faced a complex and overwhelming situation with a specific insurance carrier that put a significant strain on our staff. Diane stepped in with expert guidance, navigating the hurdles that we couldn’t have managed alone. Her persistence and deep understanding of managed care saved our nursing home from a serious mess.”

David Oscherowitz, Administrator  
Avon, Ohio

“I serve as an executive of a multi-site, NFP faith-based senior living organization. We have partnered with Access Advantage over the past year and have realized significant benefits through their management of our Medicare Advantage networks. The team at Access Advantage is organized, detail-oriented and opportunistic in its efforts to secure the best contracts possible—not only in executing new contracts, but also in improving terms (reimbursement) of existing contracts. It is very evident that Access Advantage is well-regarded by the medical insurance industry, and its ability to influence insurers and negotiate contract terms is exceptionally strong compared to other managed care network firms I have worked with in the past.”

Steve Schaaf, MBA, LNHA, VP Operations & Quality
